Perch Base USSVI

Flash Traffic - 01/01/2012

#1-1a_2012

**Base vice-commander Howard Doyle hospitalized
(CORRECTED).**

=====

As so duly noted, our shipmate, Howard Doyle, is not waiting until JUNE 2 to have his operation. This was indeed a typo on my part and it should have been January 2 (and at 8 a.m. we now know.)

My apologies to all who thought he would be in his bed for six months waiting for the knife. (DUH!!)
