Flash Traffic - 2/22/2012 **#2-4_2012**

UPDATE - Goodyear / Avondale - "A Tale of Two Cities"

=====

Just a few days left before Saturday's parade and static display event!

If you want to help in the static display, attached is a file that will print out a Exhibitor Parking Pass. With this, you can park in the Sponsor/Exhibitor Lot shown on the **map, below, right.**

This looks like a real "FUN" event, shipmates, and a good chance to take "boats" with other shipmates.

Remember: 9:30 staging for the parade (See left map.) Noon till 3 p.m. for the static event (See right map.) Check out the map! We're location #54 for now but this may change. No Problem!! Look for a nuclear submarine! Not too many of those around.
